G2M Case Study

Virtual Internship

20-Jan-2021

Background –G2M(cab industry) case study

- XYZ is a private equity firm in US. Due to remarkable growth in the Cab Industry in last few years and multiple key players in the market, it is planning for an investment in Cab industry.
- Objective : Provide actionable insights to help XYZ firm in identifying the right company for making investment.

The analysis has been divided into four parts:

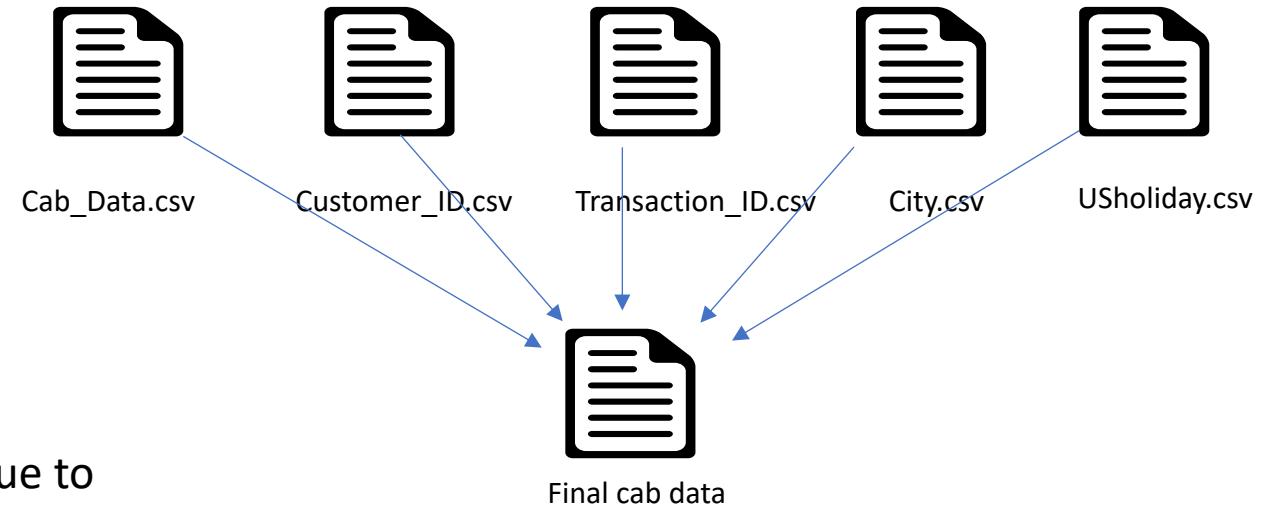

- Data Understanding
- Forecasting profit and number of rides for each cab type
- Finding the most profitable Cab company
- Recommendations for investment

Data Exploration

- 24 Features(including 9 derived features)
- Timeframe of the data: 2016-01-31 to 2018-12-31
- Total data points :355,032

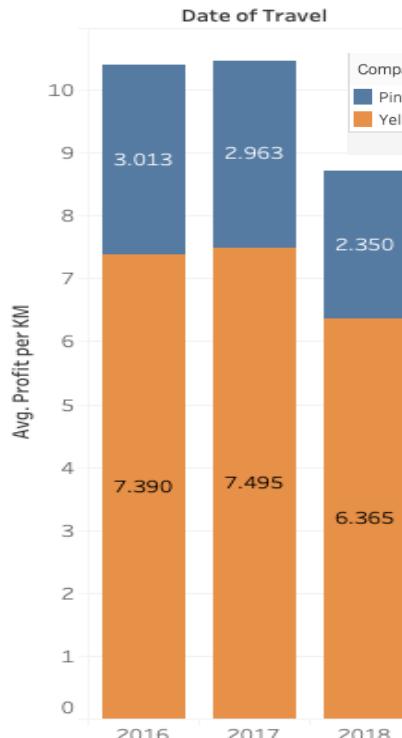

Assumptions:

- Outliers are present in Price_Charged feature but due to unavailability of trip duration details ,we are not treating this as outlier.
- Profit of rides are calculated keeping other factors constant and only Price_Charged and Cost_of_Trip features used to calculate profit.
- Users feature of city dataset is treated as number of cab users in the city. we have assumed that this can be other cab users as well(including Yellow and Pink cab)

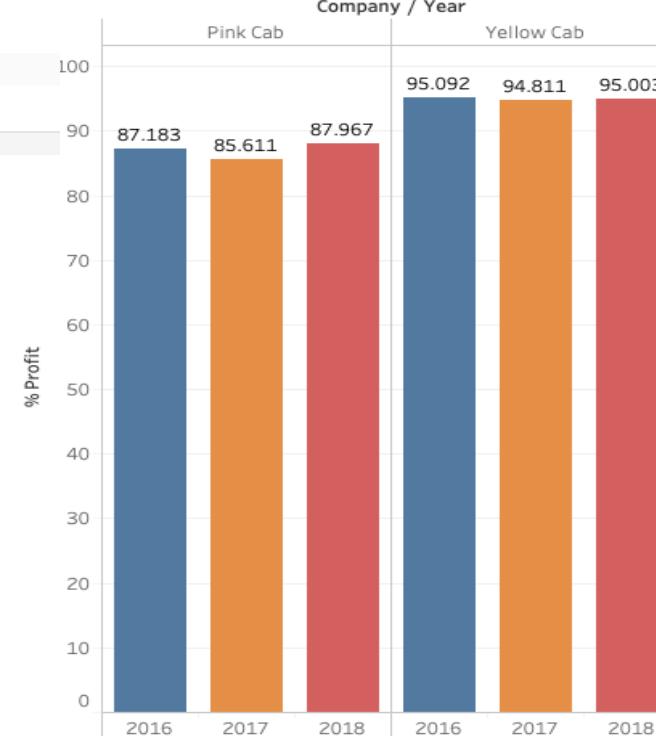

Profit Analysis

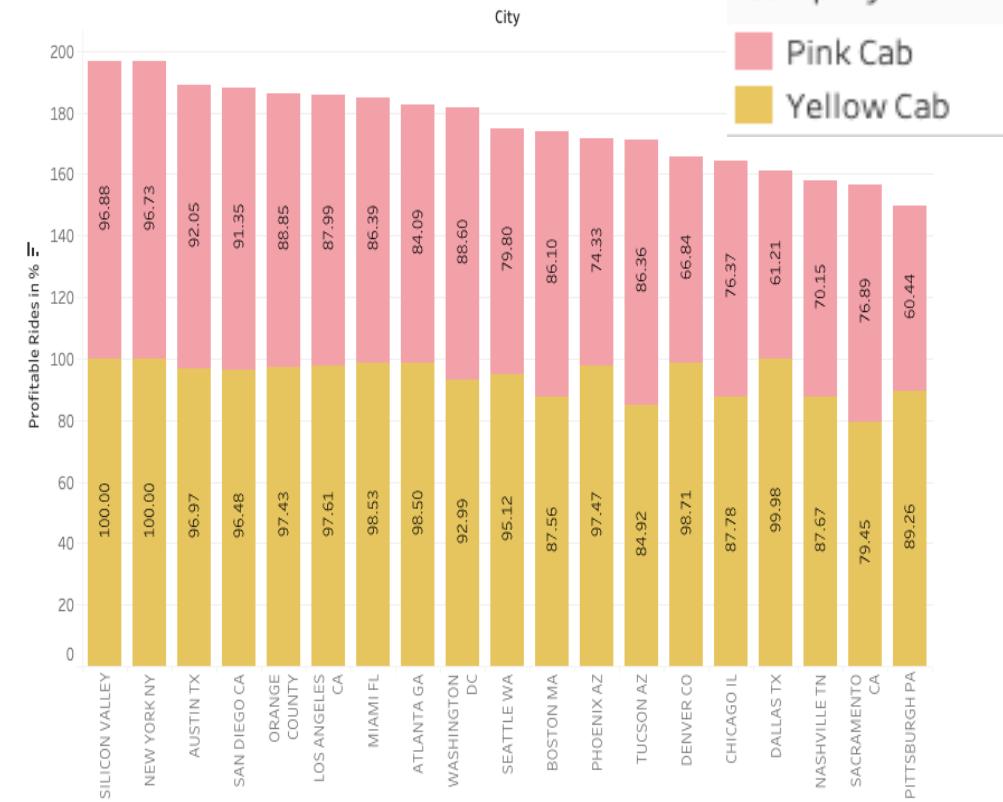

Average Profit Per KM

Profit % Yearwise

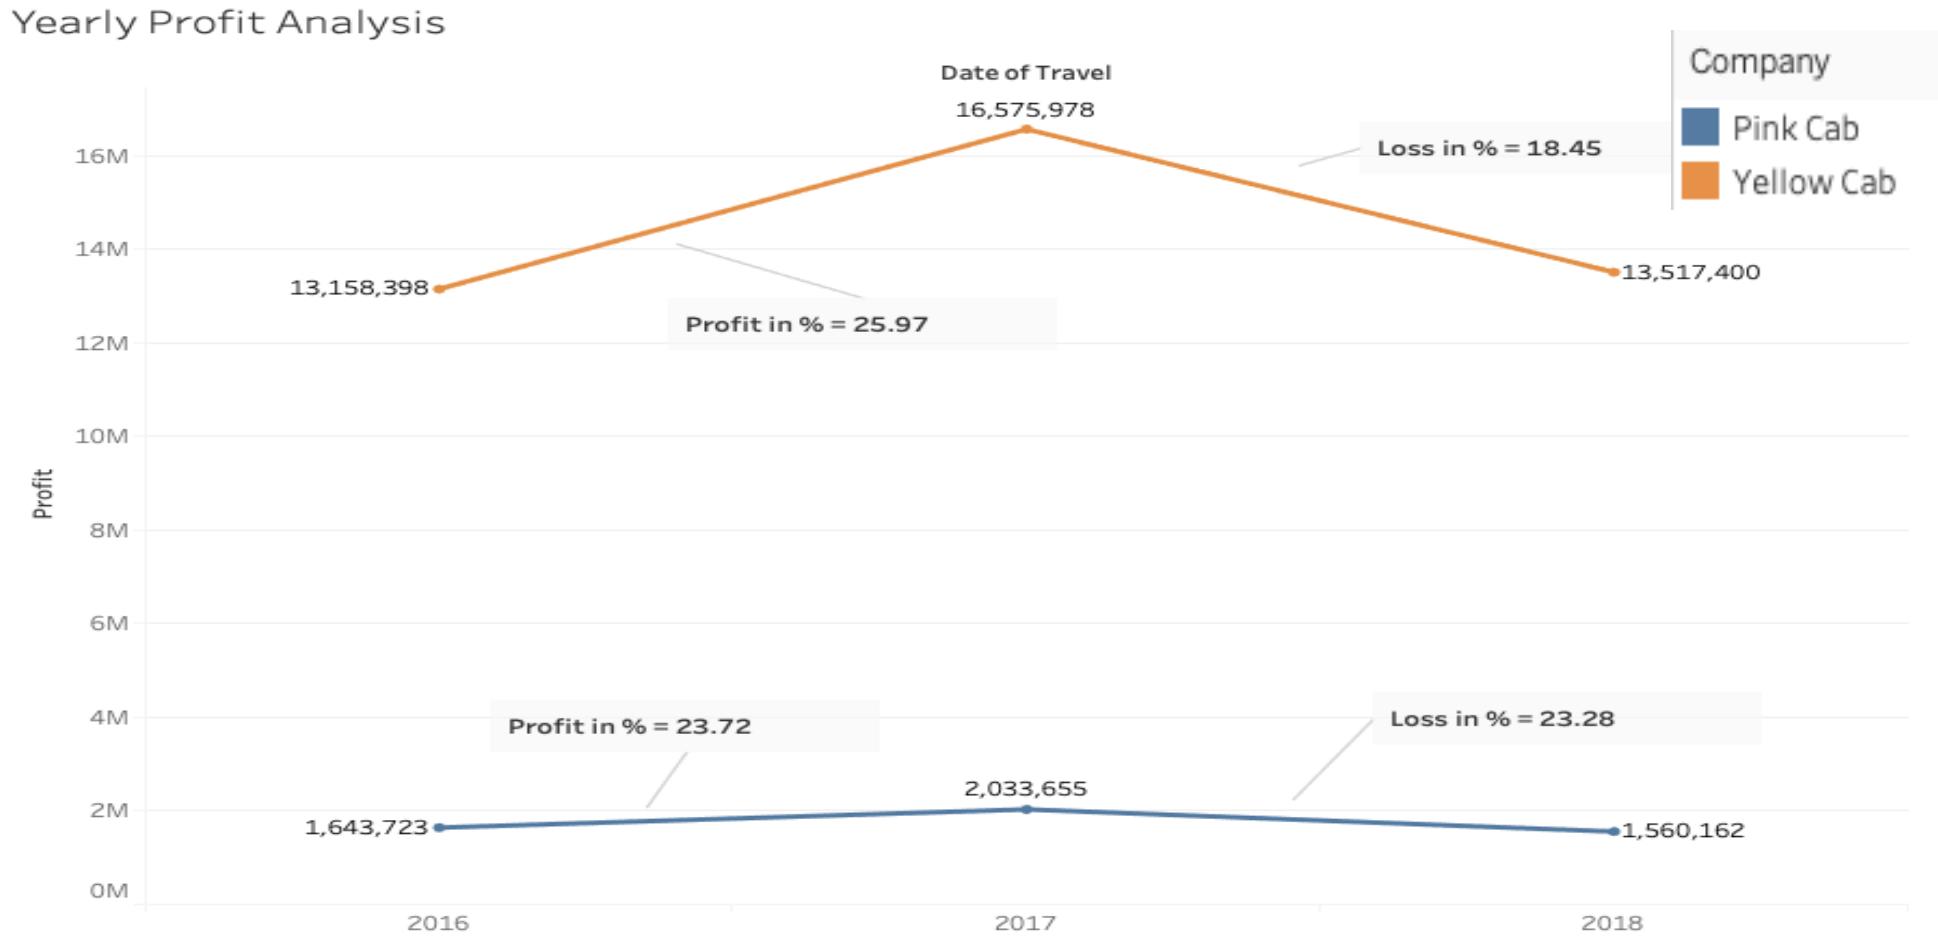

Citywise Profitable rides Percentage

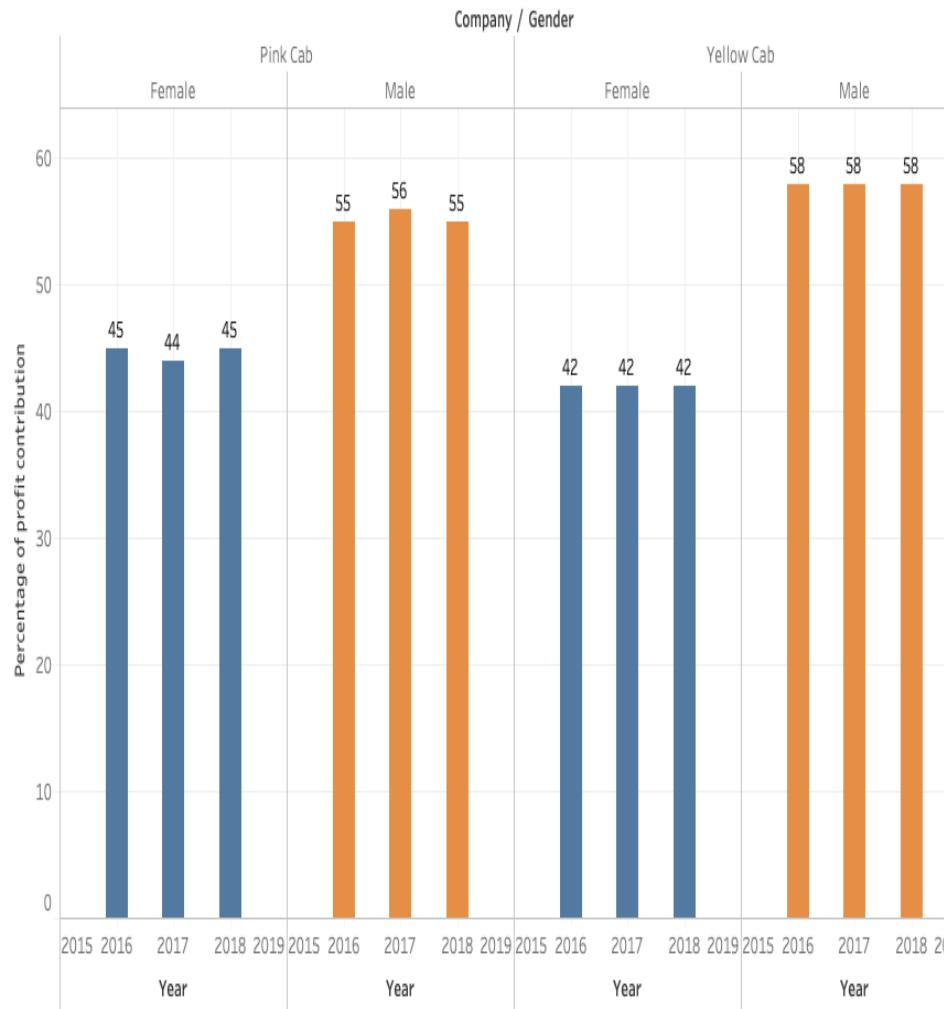

Company	Profit	Total Rides	Profit Per Ride
Pink Cab	5,237,540	83,825	62.48183716
Yellow Cab	43,251,775	271,207	159.4788298

- Yellow cab is performing well as compared to Pink cab on Holidays.
- Yellow cab is even Performing well In the cities where Pink cab's customer is more.
- Sandiego has more rides on weekend as compare to cities where Pink cab dominates and here also Yellow cab is giving tough competition to Pink cab

Profit Forecasting for 2019

Forecasting of no. of rides for 2019

Recommendations

We have evaluated both the cab companies on following points and found Yellow cab better than Pink cab:

- **Customer Reach :** Yellow cab has higher customer reach in 25 cities while Pink cab has higher customer reach in 4 cities. We have also observed that Yellow cab is doing good in covering other cab users as compared to Pink cab.
- **Customer Retention:** We have analyzed this in two segments : at least 5 drive and at least 10 drive with the same cab company. And we found that Yellow cab is doing far better than Pink cab in both these segments.
- **Age wise Reach :** Yellow cab has customer in all age group and it's been observed that it's even popular in 60+ age group as equally as its in 18-25 age group.
- **Average Profit per KM:** Yellow cab's average profit per KM is almost three times the average profit per KM of the Pink cab.
- **Income wise Reach :** Both the cabs are very popular in high and medium income class but here also Yellow cab is performing better than Pink cab in offering their services to all the three income class group (low, medium and high)
- **Ride count and Profit Forecasting :** Both the companies are facing loss in the profit and no. of ride. Yellow cab's forecasted profit loss is around 1.83% while Pink cab's loss is 3.1%.Pink cab is facing more loss even when its forecasted no of ride loss is lesser than Yellow cab.

On the basis of above point , we will recommend Yellow cab for investment.

Thank You
